

CPSC 302, Fall 2018

Assignment 0, due Wednesday, September 12, 13:00

Instructions: There are no points associated with this assignment. This is simply a test to make sure we all can use the assignment submission procedure within Canvas.

1. Use a PDF viewer to fill your name and student number into the boxes below:

Name

Student Number

2. Save this PDF file with the name `XXXXXXXX-Assignment-00.pdf` where `XXXXXXXX` is your 8-digit student number. *Be sure to use the same capitalisation, the hyphen (not spaces!), and two zeros in the file name!* This is required to ensure files can be processed programmatically as much as possible.
3. Create a zip archive containing two files:
 - the original assignment file `Assignment-00.pdf`; and
 - your saved version (`XXXXXXXX-Assignment-00.pdf`).

Use whatever tools you have for working with zip files. Save the zip archive with the name `XXXXXXXX-Assignment-00.zip` (again, using your student number and the same capitalisation, hyphenation, and two zeros).

4. Submit the zip archive `XXXXXXXX-Assignment-00.zip` to Canvas.
